Good Afternoon Bill -

I just wanted to follow up with my conversation with you on my interest in getting a sense on how each of our states are addressing NPDES permitting for conventional oil and gas facilities and their discharge of produced water. Could you please send me an example permit and SOB for both an older facility that is discharging to meet water quality criteria, as well as a newer facility? If at all possible, I would be also interested in seeing a permit that includes WET monitoring and/or WET limits. This will be helpful as we work through our oil and gas permitting in Indian Country as well as in helping us get a sense of how NPDES for oil and gas is being addressed regionally.

Thanks

Elaine
